THE LYNCHBURG FERTILIZER AND INSECTICIDE ... new fer, tilizer and improver of land—adapted to all crops and all climates—consists of three brands:

Ist. The Cross Brand, especially for Tobacco; a stimulating manure

2nd. The All Crop Phertiston s first class manure and top-dresser,

2nd. The All Crop Phertiston—a first-class manure and top-dresser, and a perfect insecticide.

3d. The Fire-Brand, designed only as a manure, and to destroy worms and other insects in the ground, at the ront of the group.

To the people of Virginia and the South generally. The Lynchburg Fertilizer should commend itself because it is a home anterprise: to all people because it is guaranteed to be absolutely pure and unsulticrated, and contains less inert matter in its composition than any fertilizer ever softered in any market. It is a combination of mineral and regetable constituents. It is not a high stimulant but a feeder of land, and is permanent in its effects.

We claim for it:

is not a high stimulant but a feeder of land, and is permanent in its effects. We claim for it:

1st. That it is the best manure in the world for wheat, outs and other small grain, and acts in a dry season with remarkable effect.

2d. That it is singularly adopted to the cultivation of fruit, vegetables, and flowers, as well as corn, tobacco and cotton. It is, as we believe, the best commodity known for the purposes of plant bads, hat houses and nurseries; and is an admirable top, dressing for grass or grain crops.

3d. That it possesses the rare virtue of destroying or driving away all insects which infest trees or any other vegetable growth.

A TRIAL OF IT IS ITS BEST QUARANTEE.

The growers of oranges, peaches, apples and other fruits will find as proparations to compare with the Phortiston, not only because it is a first, class fertilizer for promoting the growth and productiveness of their trees, but also because of its properties for destroying or driving away the insects which injure the roots, the bark and the fruit of the trees. THE CROSS-BRAND

is put up in bags of 167 lbs. or 12 bags to the ton,] especially for use or Tobacco, as a Manuro and Insecticide.

THE ALL-CROP PHERTISTON is put up in bags of 167 lbs. for general use as a fertilizer, a top-dresser, and an Insecticide; also in packages of 100 lbs., 50 lbs., and 25 lbs, for hot-houses, gardens, lawns, flower bods, orchards, shade trees, etc., and for the use of small consumers in general.

THE FIRE-BRAND

is a cheap manure and destroyer of worms and other is seets at the root of
